

## Tibbitt to Contwoyto Winter Road - 2021 Season

The 2021 operating season for the Tibbitt to Contwoyto Winter Road Joint Venture will start at 8:00 AM on Monday, February 8, 2021. The Winter Road, which is expecting 5700 loads to go north this year, will finish on March 31, 2021.

Winter Road trucks operating under the Joint Venture's mandate will be identified by a three-digit reflective plate located in the corner of the front windshield on the driver's side.

To ensure the safety of the traveling public and to minimize delays for residents on the Ingraham Trail, the Joint Venture has implemented the following operating components for Highway # 4:

- Winter road trucks will be dispatched in convoys every 20 minutes and travel on the Ingraham Trail with a minimum spacing of 1000 metres between the units;
- Dispatching of the Winter Road trucks, north and south on the Ingraham Trail, will be suspended twice at day (7:00 AM to 8:00 AM & 5:00 PM to 6:00 PM) to minimize the impact to residents commuting to Yellowknife in the morning and back home at the end of the workday;
- The Joint Venture will be operating two (2) Security vehicles 24 hours a day along the entire length of the Ingraham Trail monitoring the speed, spacing and driving of the Winter Road trucks; and,
- Winter Road truck speeds are limited to 70 kilometres while traveling on Ingraham Trail.

All emergencies on the Ingraham Trail must be reported to emergency services by calling 911.

Residents of the Ingraham Trail and the travelling public on Highway # 4 can report safety concerns or non-emergency events to the Joint Venture Winter Road Dispatch Centre at 873-9111.
